## WHAT IS THE TRANS AM RACING SERIES?

Their posters covered your garage and bedroom walls and they've been rolling off assembly lines in Detroit for decades. They're the quintessential American cars, engrained in our culture and our hearts.

Throughout the years, some of the greatest names in motorsports have participated in the Trans Am Series. Names like Tommy Kendall, Mark Donohue, Peter Gregg, Bob Tullius and Wally Dallenbach, Jr. have all won multiple championships under the Trans Am name. Everyone has a favorite on the road or on race day. Everyone knows who they're rooting for, openly or secretly. And, now, they're back in force.

### FORD MUSTANG

### CHEVROLET CAMARO

### DODGE CHALLENGER

This is the TA2 class. The fastest growing class in road racing, no matter how you look at it. And there's a reason for that. Not only do they ignite the passions of fans and drivers alike, but they're fast, powerful and the best deal in racing—with a track list including Road America, Watkins Glen, Sebring, Mid-Ohio, and The Circuit of the America's drivers get to perform on some of the legendary courses in North America.

It's a class of top performers and competitive racing, one that's growing but maintaining its core values—high performance racing of a caliber on which purists and enthusiasts can agree while focused on cost control. With an average car count of 26 throughout the year, and some events with over 40 entries, the value, exposure, and entertainment that TA2 provides is the best in the industry.
